Ko Ise DATAHOTEL CO, LTD. 28, June 2013

White Data Center

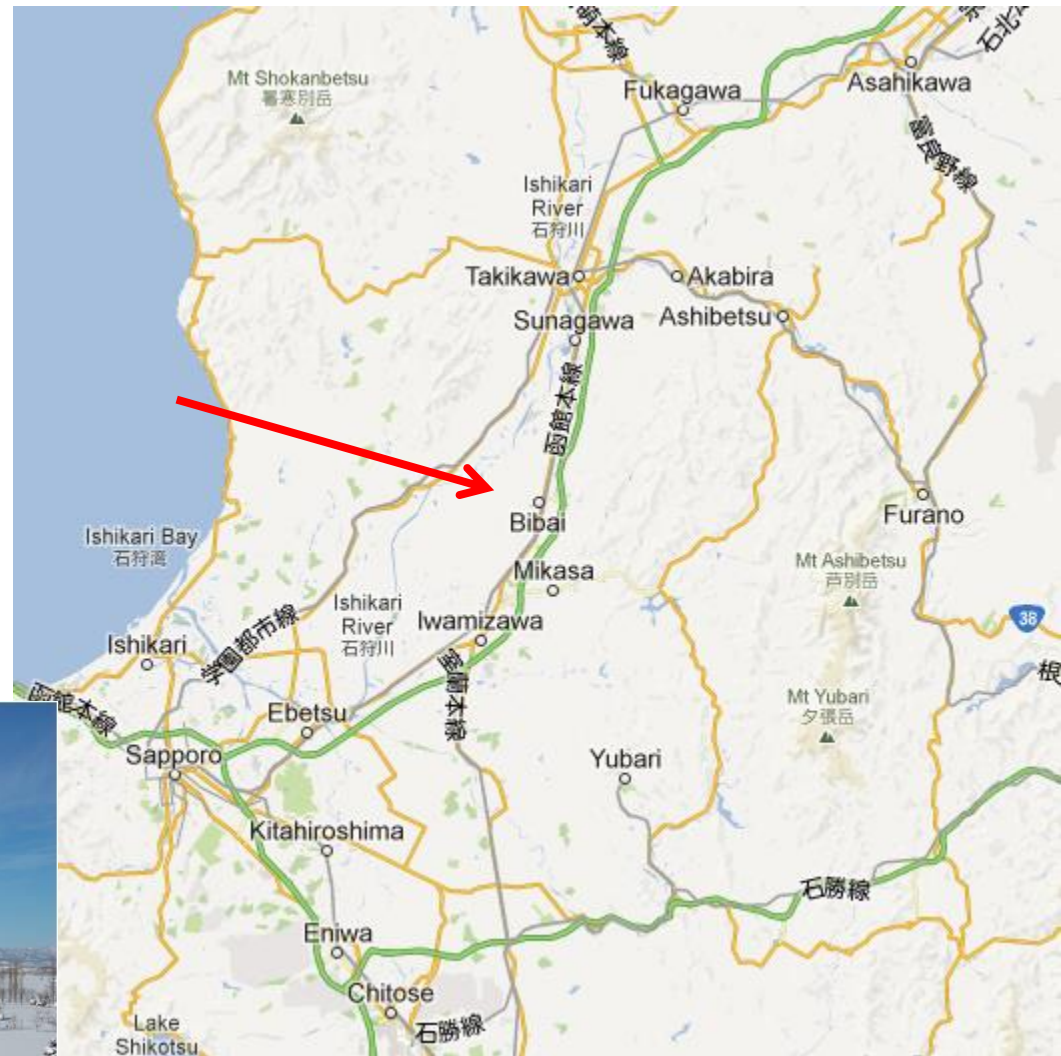

Hokkaido BIBAI City White Data Center Project

Hokkaido

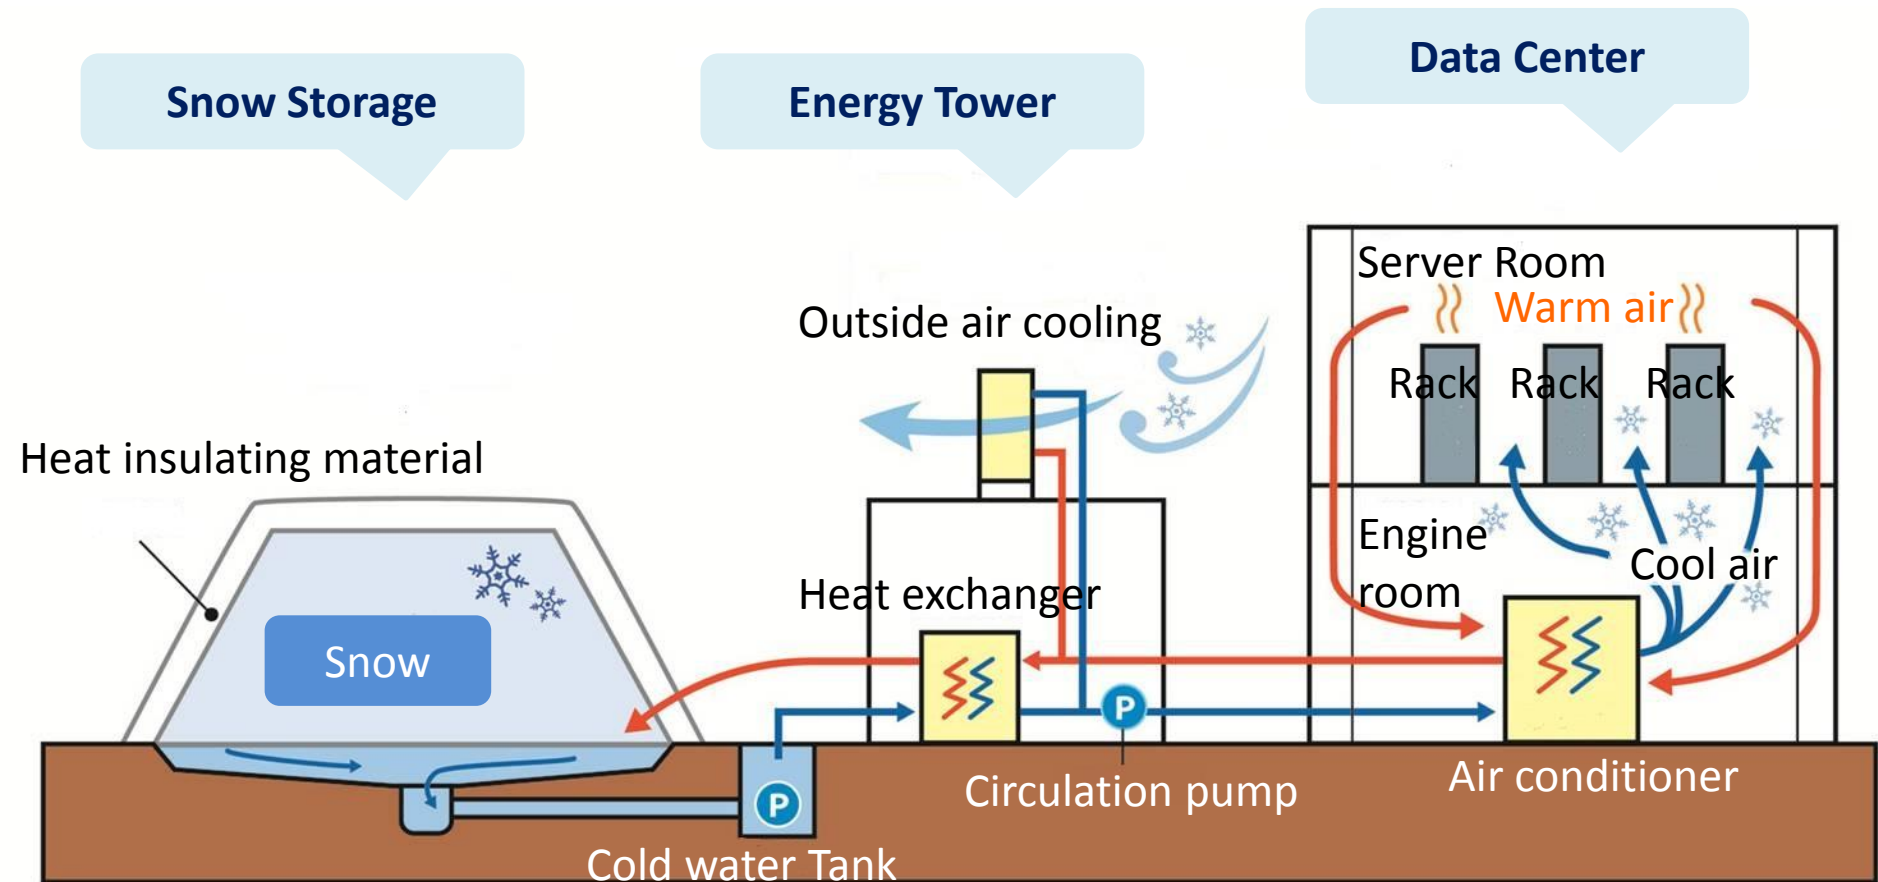

BIBAI City

- Surface Coal Mining
- Heavy Snow Area

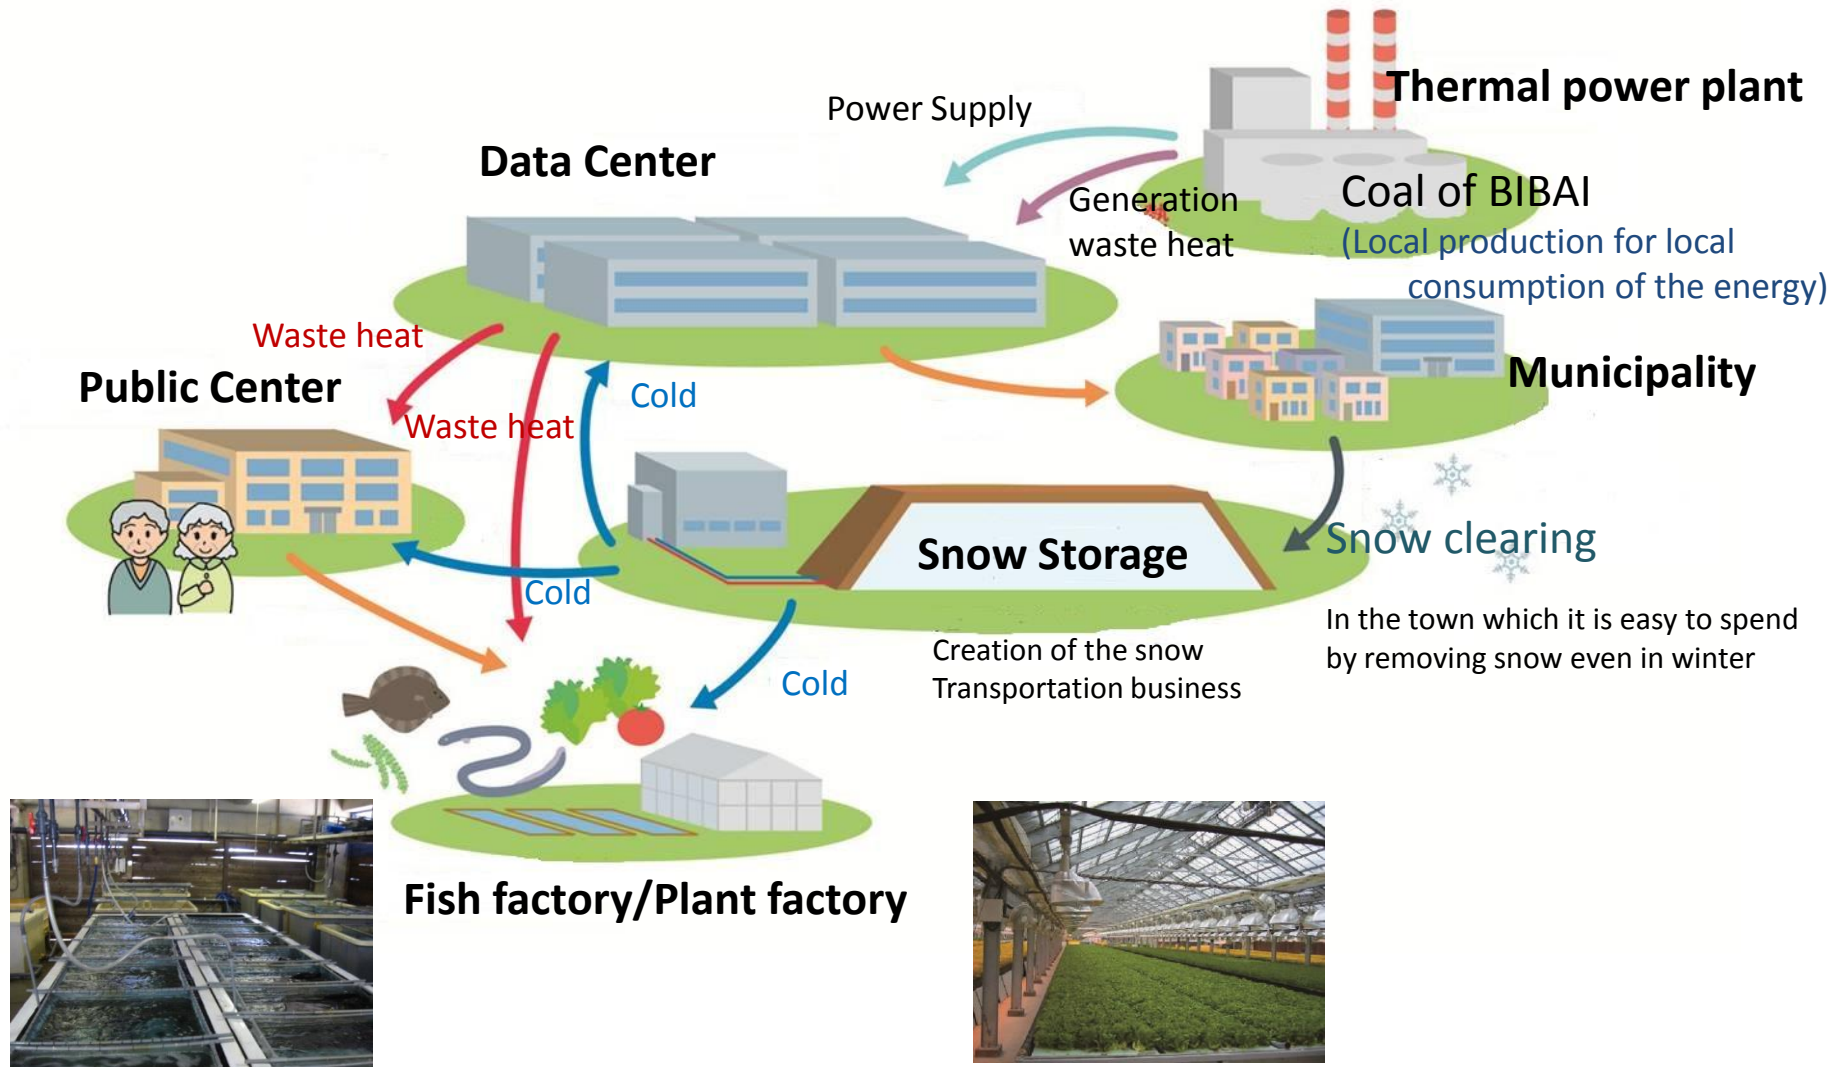

Cool outside air & Cold snow water Full Natural Cooling System

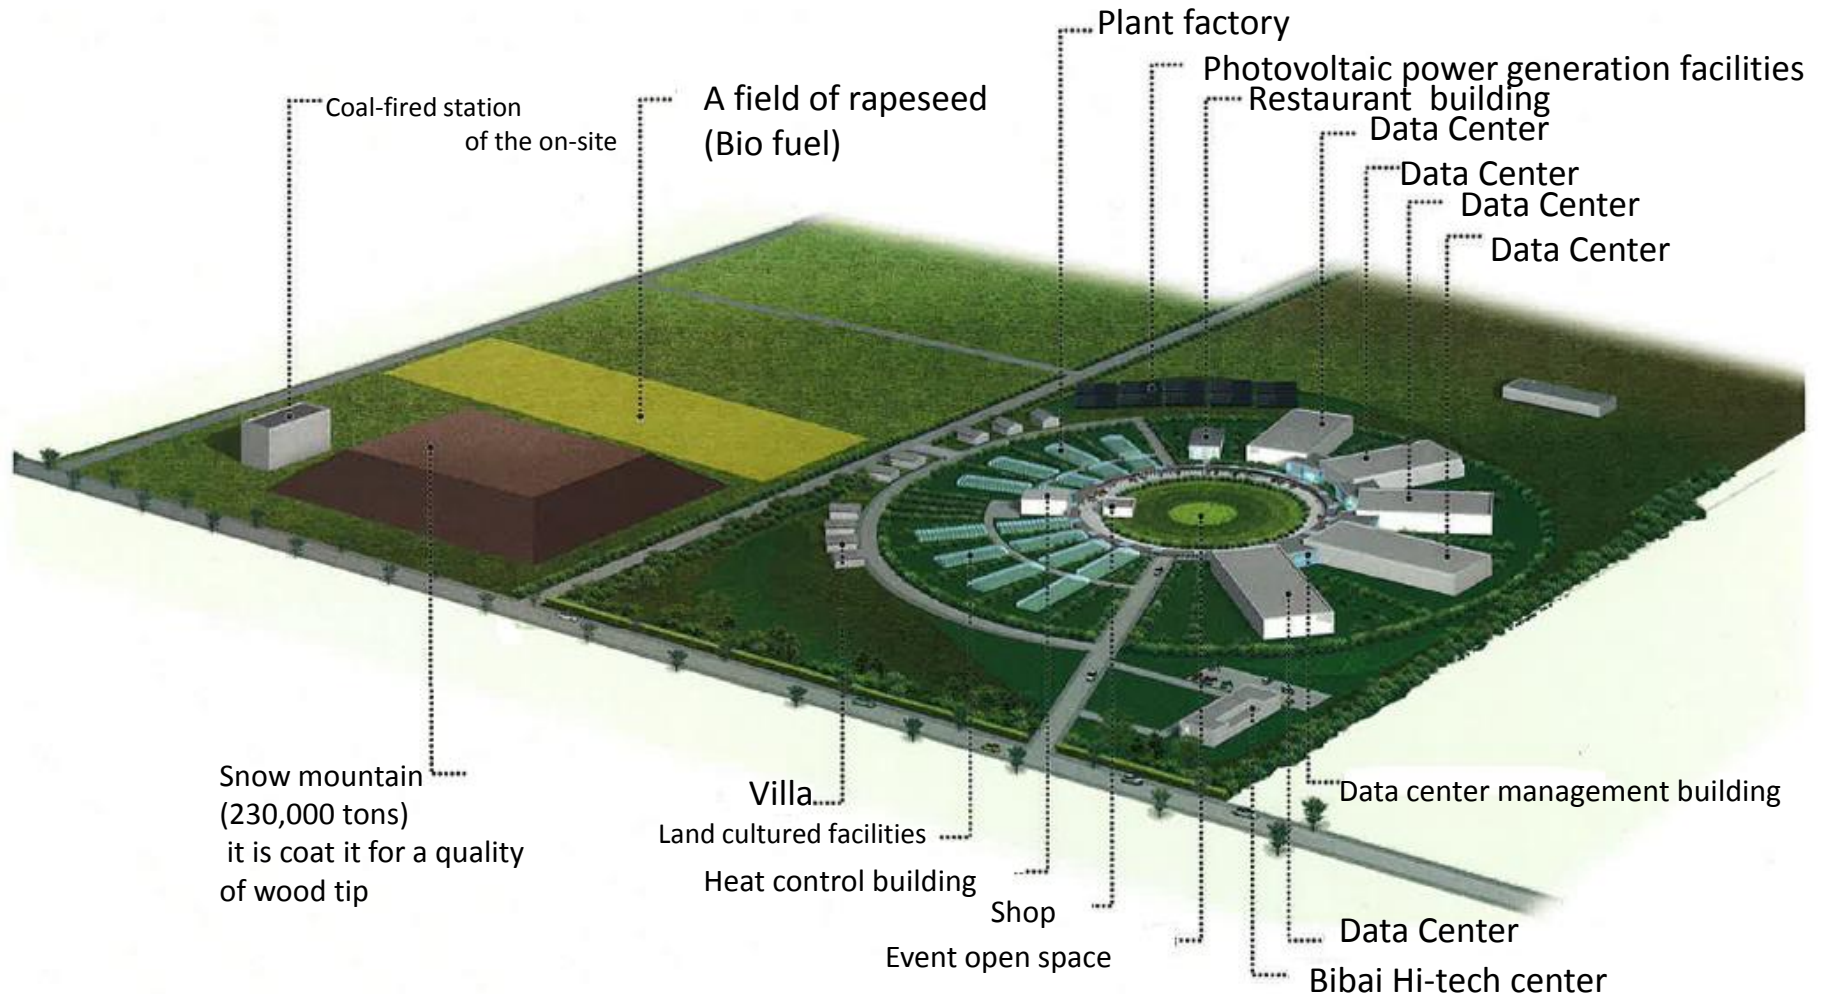

Heat Energy ECO System

The Point of ECO System is DataCenter.

WDC + OCP = White Open Compute

Integrated Data Center Campus for Multiple Industry Cluster

White Open Compute Project

- Zero-Emission Coal Thermo Power plant
- Full Natural Cooling System and OCP
- Coal Mining, Power Generation
in the same City
- Low Transfer Cost and Energy
- Recycle of Waste Exhaust heat
- Global Standard, High performance
Low cost Data Center
- ECO System Generate new Industries.

To Asia From the World

To the World from Asia

Thank you for your attention

Special Thanks to Agile Cat

And BIBAI City
