MiTAC-Synnex Group

- MiTAC-Synnex Group, a multinational business group established in 1945.
- Its scope of businesses covers the computer, consumer electronics, IT channel, system integration, software development, petrochemical, industrial gases and food processing industries.

2014 Consolidated Revenue: US\$29.4b

MiTAC Synnex Consolidated Revenue

■ MiTAC Computing Technology Corp.

To Provide
the reliable, stable and best TCO solutions
in public cloud, private cloud, and hybrid cloud
equipment, by collaborating with partners

Rich Experience

More than 20 years of rich experience designing -high-end models to embedded system.

Riding the Megatrend

Riding the Megatrend of cloud computing, big data analysis and internet of things to grow stable.

Win-Win Strategy

Cooperation with global partners to build up the Ecosystem.

Overview

IDMS system
provider

Market leader in
Server, Storage,
Datacenter

Business Focus

HPC/GPU

Design WW top 500 super computers for customers from China, Japan, Russia and America

IP Data Center

Starting from 2008, customers including leading software enterprises in US, on-line shopping company, Telecom company in Japan, leading social network in China, world-known expo-etc.

Server/Storage Embedded

More than 20 years of rich experience designing -high-end models to embedded system for tier one server brands and software companies.

Off The Shelf Product Offering

Product Innovation

High computing density (1U/4-socket; 4U/18-node)
Platforms for container-based deployment

Compliant to Standard

Industry-focused Design

Design for computing density
Design for thermal and power efficiency
Design for server, storage, and networking convergence

Close to Customers

Regional R&D resources
Regional sales force
Worldwide FAE support (HelpSTAR®)

Strong ODM Experience

ODM/JDM/CM Flexible Service

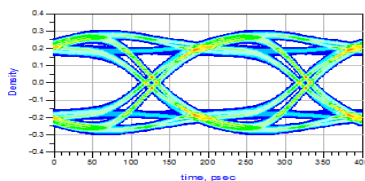

Design/Validation full integrated
Rack/Blade/Storage full lines servers
L5/L10/L11 Worldwide service

X86 Server Design & Manufacturing

For tier one server brands as well
as software companies.

SPARC/ARM Server Design & Manufacturing

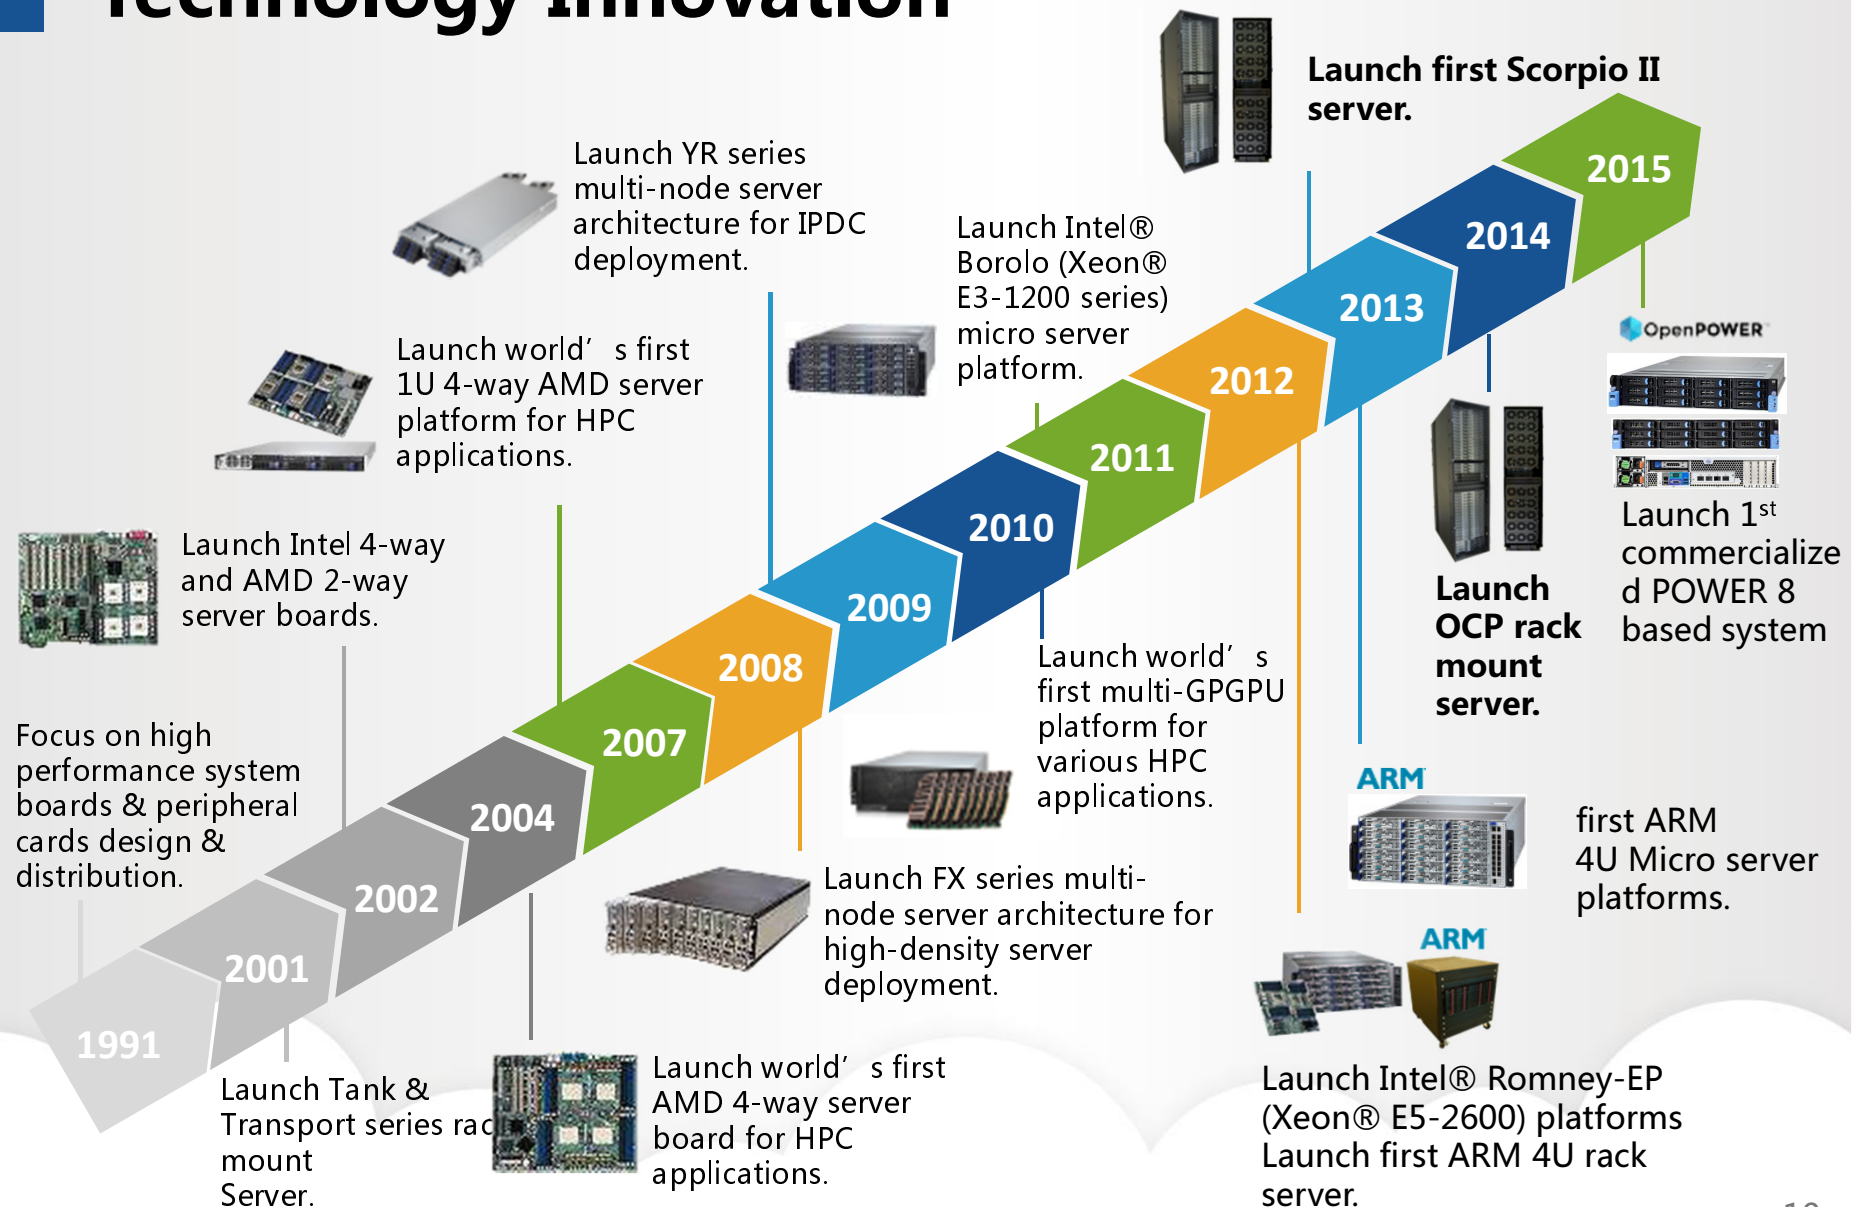

Skillful MB/System Integration
Experienced MB design guideline and SI service
18 years JDM/CM Experience
L10 final assembly & ATO for worldwide

Technology Innovation

■ Success Stories

E-Commerce

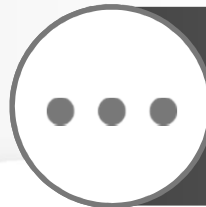

Social Media

Content delivery network

Cloud service for smart devices

And more

Success Stories

Supercomputer

- Top 1 supercomputer in Japan: Hitachi T2K Systems of University of Tokyo
- The fastest Supercomputer in China: 4-Socket Opteron Server Platforms
- The #3 Supercomputer in China: Platform with NVIDIA Tesla C2050 GPU

Movie Industry

- The Lord of the Rings, Star Wars and Scooby Doo - Visual effect in the movie industry

Aerospace Industry

- NASA's hyperwall-2 system

ISP, Websites

- Taiwan top social networking website, Wretch, served over 200 million members in a very short period of time
- Germany's biggest ISP, 1&1, providing the largest Virtual Machine Service

■ Summary

MiTAC, Your Strategic Partner

More than 20 years of rich experience designing -high-end models to embedded system.

Rich experience of server/storage installation to hyper scale data center with proven record.

Company on a stable growth.

Cross platform design capability from Intel X86, ARM, SPARK to Power system.
